Class Descriptions

Foundations - Learn the foundations of yoga postures (Asana), breathing techniques (Pranayama) and other yogic practices by developing breath & body awareness. Suitable for ongoing students and beginners.

Expanding - Expand your knowledge of Asana, Pranayama and other yogic practices. May include full inversions and deep backbends.

Restorative - Cultivate deep relaxation, self-awareness and healing through a quiet practice that uses props to allow the body to settle into tension-relieving poses.

Yin - Release deep tissue tension through long holds and slow movement, improving flexibility and increasing circulation in the joints.

Yang/Yin - Yang yoga is a term used to describe the more dynamic and active forms of yoga. Hatha yoga and flow yoga could be called a yang practice. Yang yoga poses often emphasize strength and endurance, they are active, powerful, and generate heat in the body. This class start off active and ends gently.

yogahour® - Sweat through a fun, fast-paced sequence of postures designed to be the most difficult AND doable 60-minute practice anywhere. Expertly taught by teachers trained in this style. Affordable - only \$10 drop-in. Accessible to fit beginners without injuries or serious physical limitations. note: gently-heated environment (if natural temperature is below 27C).

Foundations + Meditation: Meditate for short periods of time in a comfortable position during your Asana practice to promote more ease in the body and a deeper connection to one's inherent wisdom.

Yoga Nidra - Rest as you lie down with blankets, bolsters, and eye pillows. Learn how to cultivate a state of consciousness that is deeply relaxed, while highly attuned and alert - without having to move a muscle. Only \$8.

Community Class - a Foundations class taught by recent graduates of our yoga teacher training program. Only \$8.
